Ideation Phase
Define the Problem Statements

Date	31 January 2025
Team ID	SWTID-2026-9795
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I’m trying to	But	Because	Which makes me feel
PS-1	IT procurement team member	streamline standard laptop ordering and configuration	configuration can be delayed or overlooked	the current process has manual steps and task allocation needs to be improved	frustrated by delays and manual intervention
PS-2	user requesting a standard laptop	receive a laptop that is promptly configured after arrival	the configuration task may not be created and assigned in time	standard laptop procurement requires approval and manual handling	frustrated by longer wait times for a usable laptop
